Working on the Inside - Succeeding on the Outside

The National Correctional Industries Association (NCIA) is an international nonprofit professional association representing all 50 state Correctional Industry (CI) agencies, Federal Prison Industries, foreign CI agencies and city/county jail industry programs.

Private sector companies that work in partnership with CI both as suppliers/vendors and as partners in apprenticeship and work programs are also members.

What Offenders Are Saying about CI

"The skills I've learned working in the industries are directly transferable on

"Correctional Industries is essentially laying the cornerstones for my future success."

TOP TEN BENEFITS OF CORRECTIONAL INDUSTRIES

Top Ten Benefits of Correctional Industries

Reduces Recidivism

Correctional Industries (CI) is a proven program that works. Cl's recidivism rate of 22% vs. the state rate of **39%¹** illustrates that offenders working in CI are less likely to return to prison than the average offender.

Generates Return on Investment A Washington State Institute for Public Policy study concluded that CI programs generate significant savings of taxpayer dollars. For every \$1.00³ spent on Cl, \$4,77³ is saved in future criminal justice costs due to the reduction in recidivism.

Provides Victim Restitution

Offenders who participate in CI programs are able to contribute to their financial obligations from their earnings. Over \$82 Million⁶ has been contributed to Victim **Compensation and Restitution Funds** through PIECP.

Saves Taxpayers Money

Over 86%² of CI programs are self-funded and operate solely from the revenue they generate from the products and services they provide, without relying on tax-appropriated funds.

Keeps Prisons & Communities Safer

CI programs effectively reduce offender idleness inside our prisons which is proven to decrease violence against staff and offenders. CI provides offenders with job skills, enabling them to successfully reenter society, obtain employment, and contribute as tax-paying citizens.

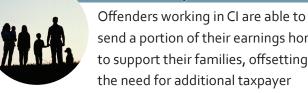

Reduces Cost of Incarceration

The existence of self-sustaining CI programs offsets the need to spend additional taxpayer dollars for offender supervision and alternative program costs.

Supports Businesses & Economy CI purchases \$1.3 Billion⁴ in raw materials, supplies, component parts, equipment and services to support its operations. In doing so, they rely heavily on small businesses in the community, returning much of the revenue to local businesses.

Builds Family Ties

send a portion of their earnings home to support their families, offsetting the need for additional taxpayer public assistance programs. Over \$46 Million⁵ has been contributed to Family Support Payments through the Prison Industry Enhancement Certification Program (PIECP).

Supports Veterans

CI employs veterans in both civilian staff and offender worker positions. CI works with disadvantaged and disabled veteran-owned businesses.

Made in the USA

Products manufactured by CI are made in the United States, supporting domestic jobs and our nation's economy. CI serves as a domestic resource to perform work that would otherwise be done outside the United States.
