ABOUT CORNHUSKER STATE INDUSTRIES

In 1886, the first prison industry shops were built within the Nebraska State Penitentiary, for cobbling shoes, making furniture, processing laundry, and canning penitentiary-grown produce. We've come a long way since then!

Today, CSI operates shops and programming in five NDCS institutions. We are a business and we use the techniques of a regular business to design - draft - engineer - manufacture - assemble - sew - stitch - recondition - refinish - reupholster - repair - print - paint - launder - finish - engrave - transcribe - market - sell - deliver products to our customers throughout Nebraska.

At the same time we are here to provide public service. Our product lines range from Braille transcription and repair to fine custom wood furniture, outdoor furnishings, printing, laundry service,

janitorial products, clothing, dry goods and making all Nebraska license plates.

We have 15 shops located within the Nebraska State Penitentiary, Lincoln Correctional Center, Omaha Correctional Center, Nebraska Correctional Center for Women, and Tecumseh State Correctional Institution providing meaningful jobs and programming for hundreds of incarcerated men and women workers.

In addition, CSI is responsible for the provision of incarcerated men and women road crews throughout the state that assist other state agencies and political subdivisions. We are always looking to expand our operations, thereby offering more programming opportunities for our incarcerated men and women workers.

MISSION: BUILDING OPPORTUNITIES

Our mission is to use work as a tool to prepare incarcerated men and women for successful reentry back into our communities.

We provide meaningful work experience by building quality products, providing services and creating value for our external customers.

Work skills are supplemented with training, education and certifications so CSI workers can effectively translate their abilities into post-release success.

CSI VALUES

Individual Growth - We invest intentionally in CSI staff and workers to develop their individual potential and contribute to success inside and outside of the organization.

Integrity - We strive to model integrity in all that we do, acknowledging that everyone plays an important role in demonstrating professional behavior and respect.

Engagement - We seek to engage our stakeholders to sustain high levels of motivation, teamwork, collaboration and accomplishment.

Communication - Communication is vitally important to propel our vision, share knowledge, offer feedback and celebrate success.

Quality - Quality is built into all processes, products and services so that we may be more effective organization.

CSI VISION STATEMENT:

To build opportunities for CSI workers to achieve gainful employment upon release.

CSI SALES REPRESENTATIVES

For faster service please contact your local sales representative below. Our sales team is here to

- Discuss your project over the phone
- Answer your email and provide relevant information you requested
- Schedule an onsite visit at your office during which he/she can measure the space in order to produce a computer generated design and discuss details about your project
- If you decide to visit our showroom, demo products and answer your questions
- Provide you an official quote
- Work with you during the ordering process
- Provide an estimated delivery time
- Follow up with you after the products are delivered

U-SHAPED DESK

U-Shaped desks are custom made to meet the needs of the customer as well as the space available. It can include a conference top, a hutch, a number of drawers, a corner shelf or even a cabinet. The size of the desk can vary depending on the position of the desk in the room and location of windows and doors. That is why at CSI we custom design and manufacture the desk to meet your needs and specifications. Furthermore, you can personalize the desk by choosing the wood type (oak or birch), wood stain, edge trim, hardware, laminate. Grommets are optional at no cost. Consult with your CSI Sales Representative for the placement.

Contact you CSI Sales Representative to discuss your custom design.

HUTCH

This hutch works especially well on any of our desks with 48" return or our smaller units that are 48" wide. The hutch measures 34" high by 47" wide by 13" deep and has 17" of clearance between the desktop and the storage shelf.

M2.1 MONITOR ARMS

The M2.1 Monitor Arm from Humanscale is available for Single or Dual Monitors. It is going to instantly improve the comfort, health, and productivity of your workspace. Fully compatible with traditional desks and sit/stand workstations alike, M2.1 meets a variety of configuration needs for lighter monitors up to 15 lbs. It is available in silver or black color. Choose the clamp mount or the bolt through mount for desks with a grommet.

M2.1 features the lowest cost of ownership of any monitor arm, meaning it is the easiest, quickest, and most cost-effective, arm to install and modify for future moves, additions and changes to the workstation. Its durable design also ensures the monitor arm won't need to be replaced for many years.

POWERUP MODULE

The PowerUp Module is a surface mounted power/data module, which when closed is nearly flush with the tabletop. When opened, the module flips up providing easy plug-in access to angled receptacles and data ports.

We have two versions available:

- PowerUp Module with cord ready to plug into an AC source. This is recommended for a single desk, table etc.
 - There are three cord lengths available: 22 inches, 9 feet or 15 feet.

- PowerUp Module that can connect with other PowerUp Modules in a series. This is recommended for a setup that includes a number of tables side-by-side. In this setup you will need all three of the these items:
 - The PowerUp Module itself has an easy-access press and release cover which contains two data ports and two receptacles.
 - The Activ8 Jumper, which is available in 29, 53, 77 and 101 inch lengths, is used to connect multiple PowerUp Modules in series.
 - The Activ8 Infeed, which is used to connect the PowerUp Module to an AC source.

Available only in black color.

POWERUP MODULE

For multiple tables, assuming you prefer a Module on each table, use the Activ8 Jumper to connect the Modules to each other. The Module is a single circuit, connectible power distribution system with a three-prong plug equipped infeed. The last Module will require an Activ8 Infeed to connect to an AC source. For example, five side-by-side tables with a single Module on each table will require four Activ8 Jumpers and one Activ8 Infeed.

If you are ordering a desk or table(s) and the Module(s) at the same time, please specify the location of the PowerUp Module on a table or desk so it can be cut to fit the Module and be ready for installation during delivery. If you want to purchase the Module for an existing desk or table, CSI will not be responsible for installation.

Please contact your CSI Sales Representative for more information and pricing.

KIC SIT-STAND WORKSTATION

Why settle for either/or when you can have both? KIC brings sit-stand capability to existing furniture layouts without costly or time-consuming reconfigurations. Compatible with systems furniture as well as freestanding desking, KIC's two configurations give it a place in virtually any environment. KIC's two platforms are spacious enough to accommodate a monitor or open laptop as well as a full keyboard and mouse, and because it has a load capacity of 28 pounds we can also offer it with two monitor-mount options.

<u>Item Number</u>	<u>Description</u>	<u>Price</u>
G-FR-KICM-001	Desk Mount version	\$198

G-FR-KICM-003	Single Monitor Mount	\$58
G-FR-KICM-004	Dual Monitor Mount	\$72

VOLANTÉ SIT-STAND WORKSTATION

Adding Sit-Stand capability to an existing workstation couldn't be easier. The tool-free installation takes minutes and only requires an existing desk or tabletop at least 24" deep. In addition to the spacious main platform, it includes a keyboard and mouse platform. The capacity and size of the main platform are sufficient to accommodate 2-24" monitors side by side. A cantilevered design allows it to securely hold 35lbs of equipment 20" above the tabletop, but a pneumatic mechanism with infinite adjustability allows you to position the monitor lift anywhere over its 13.8" height range. Height adjustments with the paddle controls will be familiar to anyone with a task chair.

TUCK LIGHTING

For under-cabinet task lighting, blending in can be the first mark of standout success. That is exactly the case for Tuck LED lighting. Its low profile design and intuitive controls mean that after installation, you may not give the fixtures a second thought.

What you will notice is the improved lighting they provide. Tuck banishes the dark corners beneath transaction counters and overheads, turning them into well-illuminated, functional worksurfaces. Its LEDs emit an energizing bright white light that provides faithful color representation.

Available in 12", 17", 31", and 44" lengths. Multiple fixtures can be interlinked with the purchase of adder lights to create custom or longer runs. Interlinking allows a chain of fixtures to be powered by the starter light and controlled as one. View the chart online or contact your sales representative for more information.

Tuck's on-off switch also contains a capacitive touch dimming control. Touching the control adjusts the light level continuously from 100% to 15%. Maintaining the perfect setting day after day is made easier by the last state memory feature. Energy conscious users will also appreciate an automatic shut-off feature.

SINGLE SIDED BOOKCASES

An attractive bookcase can be a welcome addition to an office, study, den, library, or family room. CSI can custom make bookcases to fit the space available and can be combined with corner bookcases. Our shelving system is sure to become an important part of your room.

Custom ordered bookcases are installed side by side to extend the full length of your area. They can be ordered in widths of 36", 48", 60", or 72". All widths except 36" include a center divider. The 36" height has one adjustable shelf. All other heights include two adjustable shelves. All single-sided bookcases are of 12" deep.

Solid wood construction ensures durability, while adjustable shelving gives you many options. All widths are available in heights from 36" up to 84" with a fixed bottom shelf and up-to five adjustable shelves. Additional shelves can be ordered for an extra charge.

SNAP

G-CR-9679

This cost-effective line offers the value, comfort and reliability needed in a task chair. Because of its molded foam construction, lumbar pillows for back support, sculpted seat and firm back, Snap chairs are the most comfortable chairs in their price range.

Beyond its construction, Snap seating delivers a multitude of adjustments to fit the needs of individual users. Snap allows users to adjust back height, back pivot, arm height and seat height. Chair mechanisms are made of heavy gauge steel plates and are securely attached with six bolts.

Five-star bases are fiberglass reinforced nylon and all hardware is treated with Nylock patches to prevent loosening over time.

(Price includes Tier 1 fabric. Tier 2 fabric: +\$20, Tier 3 fabric: contact Sales Representative for quote)

- Back pivot with 10 degree range

PILOT 24/7

For generously sized seating that is durable, comfortable and attractive, the Pilot 24/7 task chair is the clear choice. These task chairs offer an abundance of features that can be customized to you. A pneumatic lift mechanism lever, located beneath the seat, allows you to change the height of the seat. For additional comfort, the Pilot series also features a seat slider to adjust the depth of the seat. Highlights of the Pilot task chair include heavy-duty casters, ultra-durable engineered plastic base, a heavy-duty pneumatic cylinder and a 10-ply seat board. Pilot task chairs are available with loop arms, t arms, or armless. The looped arm is fixed height and fixed width with a soft, radiused aesthetic. T arm adjust 2-3/4" in height and 2-1/2" in width. At first Pilot looks like any other task chair. Look again and you notice that while it is larger and stronger, its transitional style harmonizes nicely with other task chairs in a wide variety of environments.

Dimensions:

Seat Width: 22"

Seat Depth: 18" to 21"

Seat Height: 18" to 22 1/4"

Overall Height: 40" to 48"

Weight Capacity: 400 pounds

PILOT 24/7 XL

You don't just need seating that the "average employee" will be comfortable in, you need seating that you will be comfortable in all the time. If you have found that other chairs just don't measure up, Pilot XL is ready to welcome you aboard. Big and tall users will appreciate the XL Task Chair expansive 24" wide seat, which features a waterfall edge to relieve pressure on the thighs as well as their high back that provides gentle support to the entire spine. To further prevent fatigue, layers of plush, resilient foam envelop both the seat and back. Designed for round-the-clock use, Pilot XL seating won't just be comfortable the first time you use it, it will be comfortable every time. A heavy-duty frame including an oversized stell J-bar and reinforced mechanism guarantees it. With so many reasons to make Pilot seating your own, the only decision you need to make is where you want it to take you.

Dimensions:

Seat Width: 24"

Seat Depth: 18" to 20 1/2"

Seat Height: 26 1/2" to 33"

Overall Height: 40" to 48"

PILOT 24/7 STOOL

If you work for an organization that never sleeps, your workspace probably isn't yours alone, but it doesn't have to feel that way. The Pilot 24/7 Stool offers an abundance of features that can be customized to you. A pneumatic lift mechanism lever, located beneath the seat, allows you to change the height of the seat. For additional comfort, the Pilot series also features a seat slider to adjust the depth of the seat. For ultimate control over your reclining experience, the task chairs feature a multifunction mechanism. In free float they respond to your movement, therefore reclining based on the force you apply by leaning back. When you have found the perfect angle and want to maintain it effortlessly, you can employ one of the two locking features. The first locks the seat and back in a reclined position while the second sets only the back angle. Pilot's two height-adjustable arm options include fully adjustable T-arms and breakaway arms for those users who wear tool belts.

Dimensions:

Seat Width: 24"

Seat Depth: 18" to 20 1/2"

Seat Height: 26 1/2" to 32"

SITKA TASK STOOLS

The Sitka Task Stool features the Perfect Pivot, a patented frictionless mechanism that exactly mirrors natural body movement to provide the ultimate in sitting comfort. Backrest assembly moves over molded slide bushings and is supported by steel coil springs. This mechanism allows the backrest to move 15 degrees about an axis of rotation that is through the hips of the sitter. Sitka uses injection-molded polypropylene (Poly) shells and seat liner board along with 12-gauge steel under seat structure. This stool has

a seat height range from 20"-27 1/2" and brings the features of the task chair to all new heights. However, it is easily overlooked components closer to the floor that make the Sitka Task Stool Perfect in all spaces. Choose the poly and base colors (choice of Black or Polished Aluminum) and the fabric if you choose the upholstered style.

(Price includes Tier 1 fabric. Tier 2 fabric: +\$10, Tier 3 fabric: contact Sales Representative for quote)

PIPER

With Piper, simple becomes smart and stylish. This guest chair has subtle curves in the back and seat as well as the waterfall seat edge. This prevents fatigue and provides comfortable support. Piper's design includes an integrated handle, which is also contoured to make the chairs easy to move and stack. A bent-wire frame and polypropylene construction also keeps them light on their feet and more maneuverable for any space they are located in. Piper is perfect for training rooms, lounges, cafeterias, auditoriums, or anywhere a high-density stack chair is needed. Both Poly and Fixed Seat & Back Piper chairs can be stacked up to 10 high on the floor. Glides only.

SHIBBY MODULAR SEATING

Functional. Flexible. Fun. The Shibby lounge chair and wedges lets you mix upholstery and metal elements to find your own version of modern cool. They can be used as individual pieces or combined for one-of-a-kind creation. Its low profile allows you to build niches that subtly encourage interaction instead of rigidly walling of space. If your floor plan stops working for you - switch it up. Shibby makes reconfiguration easy. It is perfect for open spaces in libraries and schools, waiting rooms, lounge areas and any space that needs a modern and comfortable seating.

(Price includes Tier 1 fabric. contact your Sales Representative for quote for Tier 2: +\$30 fabric and Tier 3: +\$60 fabric)

CSI SEATING

We offer a variety of desk chairs as well as general use, conference room, student chairs and benches.

VISIT CSI.NEBRASKA.GOV FOR LATEST STYLES,
FABRIC OPTIONS, STAINS, COLORS AND PRICING.

PRICING: CSI's prices are subject to change with published notification. CSI reserves the right to correct errors or typographical mistakes.

ORDERING: CSI is pleased to accept orders via the CSI website, fax (402-471-1236), or U.S. Mail (CSI, 800 Pioneers Blvd., Lincoln, NE 68502). Include complete billing and shipping information, contact name & phone, and purchase order number/reference number. If you have any questions about placing an order with CSI, please call us at 800-348-7537. CSI will require customer signature on custom designs and/or special orders.

PAYMENT: Please remit all payments to CSI Accounts Receivable, P.O. Box 94661, Lincoln, NE 68509-4661 within thirty (30) days (Net 30) of receipt of invoice.

DELIVERY: CSI prices include delivery and set up throughout Nebraska. Deliveries are scheduled on a routine basis by the CSI Warehouse. Please make prior arrangements with CSI Warehouse to schedule moving, removal, and/or disposal of old furniture, for which separate fees may be charged. CSI will not attach items to the owner's walls.

STORAGE FEES/MOVING FEES: For orders that, at the customer's request, and without prior mutual agreement, are left in storage at CSI, CSI reserves the right to charge storage at a minimum rate of 2% of the total order per month. The CSI Warehouse can provide moving services. Contact CSI for hourly rates and mileage charges.

BACK ORDERS, SHORTAGES, & RETURNS: For shortages or damage noticed during delivery, please note on the shipping document or report to CSI immediately after delivery. Returns for defects in materials and/or workmanship (based on CSI inspection) will be accepted during the warranty period. Please contact CSI Customer Service (800-348-7537) to request authorization for returns. Returns based on anything other than product deficiencies are subject to a minimum 25% restocking fee. Custom orders are returnable only for defects in workmanship, materials, or CSI error.

CHAIR WARRANTY INFORMATION

Providing quality goods and services is CSI's mission and customer satisfaction is a priority. All requests for warranty repair or replacement will be determined by CSI. Warranty claims should be submitted to CSI in writing within the warranty period and fully describe the situation, as well as having a sales order number, production order number, or date of receipt.

Claims will only be honored for the original purchaser of the goods. Please contact CSI at 800-348-7537 with any questions on how to submit or report a warranty issue. The original warranty period of any item will not be extended by repair or replacement; warranty may be voided if the product was not used or installed as recommended; and warranties will not be honored in the event of modifications, misuse, abuse, alterations, or negligence by the owner.

All wood furniture manufactured by CSI is warranted for a period of five (5) years against defects in workmanship and materials, unless purchased from CSI's discount or Special Offer areas, or unless otherwise noted on the Quotation, Sales Form, or Customer Acknowledgment.

All refinished, refurbished, or re-upholstered pieces are warranted for a period of thirty (30) days from delivery. CSI offers no warranty on textiles or fabrics beyond what is offered by the vendor to CSI. Typically, this is a period of one (1) year warranty of freedom from manufacturer's defects. Wood frame chairs & upholstery manufactured by CSI are covered by warranty for a period of five (5) years against defects (excluding fabric).

Casters are warranted for one year from the date of receipt. Hard/carpet casters are on most office chairs and are made for carpeted floors. Using hard casters on a hard floor like a floor mat (is considered misuse) can be hazardous as well they could damage to the caster and the hard surface.

Most of the chairs that CSI offers have been tested to all "applicable ANSI/BIFMA standards," and are typically designed for standard office use by occupants weighing up to 300 pounds and used during one shift. Unless noted as a 24/7 chair which is designed for such areas.

If you have questions about the suitability of a model or style for intensive or institutional use, we're happy to discuss your specific needs.

MORE

PEDESTAL LEG CONFERENCE TABLE (BOAT SHAPE)

You can sit anywhere from 8 to 20 people around this style of conference table. Choose from three standard lengths- 144",96", or 72" - to suit a variety of room sizes. Each boat-shaped table features two tapered pedestal legs, a 3" apron inset 3.5" from outer edge, your choice of easy care laminate top, and decorative hardwood Roman Ogee edge trim. All tables are 30" high. Our 144" table is 60" wide at the widest point; the 96" table is 48" wide, and our 72" is 36" wide. Choose wood stain and edge profile.

UTILITY TABLE

This multipurpose table with four-casters is made for maximum mobility. This sturdy table measures 27" high by 33" wide by 18" deep, and features an easy care laminate top. Two casters lock to keep it in place. Customize this stand with many stylish options we offer. Choose the wood type, oak or birch, then the wood stain and laminate.

<u>Item Number</u>	<u>Description</u>	<u>Price</u>
F-TB-442-1	Walnut stain—Birch	\$220
G-TB-342	Custom stain/laminate—Oak	\$260
G-TB-442	Custom stain/laminate—Birch	\$260

METAL H-FRAME TABLE

This rugged work table is built to provide years of trouble-free services. It features your choice of laminate top that resist scratches and stains. The square tubular steel legs are welded to rectangular steel tubing under the tabletop for uniform support. These legs are an "H" brace 6" above the floor. All tables are 30" tall and come with a black frame.

<u>Item Number</u>	<u>Description</u>	<u>Price</u>
G-TB-131	Custom Laminate 60"x30"x30" high	\$265
G-TB-132	Custom Laminate 70"x 30"x 30" high	\$275
G-TB-133	Custom Laminte 84"x 30" x 30" high	\$290

R-BASE

Flip top mechanism

Single Bar Flip Action - Makes transporting and storing the table a single-handed operation.

Nesting Tables- All R-Base flip-top tables can be nested for efficient storage of multiple tables.

NESTING REDEFINED.

R-Base nesting tables support quick reconfiguration. The unique design accommodates two-sided usage, giving ample leg room to those seated on either side of the table. The pull of a single lever flips the worksurface vertically while the innovative angled legs create straight-line nesting for compact storage. The R-Base offers standard rectangle worksurface tops that are nominal 1-1/4" overall thickness with .030" thick high-pressure laminate top surface and a .028" phenolic backer (bottom surface). Standard table height is 29". The casters on the bottom of the table provide easy movement and have a lock to keep in place.

Choose Laminate, T-Molding color, and frame color. Add a Modesty Panel for an additional \$50.

To view all T-Molding Colors scan the code above.

T-BASE

Flip Top T-Base

Nesting Tables - All T-Base flip-top tables can be nested for efficient storage of multiple tables.

Single Bar Flip Action - Makes transporting and storing the tables a single-handed operation.

Modesty Panels are available as an option on many of the rectangular shaped tables. Available in folding or quick-release options. (Fixed T-Base with glides shown above.)

GREAT DESIGN. GREAT FUNCTION.

The T-Base provides modern styling and mobility. Arrange tables in traditional, linear layouts or innovative configurations.

Odds are your storage space is limited. We understand. That's why we created a convenient flip-top table option. Flip-top tables allow you to maximize your storage space and transport tables with ease, while the single bar mechanism takes

the concept a step further, allowing you to do it one-handed and without assistance.

The angled profile of the leg is a significant departure from traditional "floor-hugging" bases, and smooth black casters provide mobility. With outstanding functionality, superior design, and reasonable price, the T-Base will make you look at the tables like you never have before.

L-BASE

IT'S TIME TO TAKE A STAND.

With a rectangular leg and low-profile foot, the L-Base calls attention to itself for what it does, not how it looks. Even at rest, The L-Base put users first. The width-adjustable frame keeps cross members close to the underside of the table, eliminating the need for a knee-bruising mid-mount beam.

The sturdy steel construction allows the L-Base to not only support worksurfaces up to 36" x 72", but also accommodate the users that gather around both sides of it.

The dual-motor electric adjustable base offers sit-stand capabilities. The two motors drive each set of legs independently and the control box is used to synchronize them. The control box comes standard with an integrated two-button controller.

The L-Base tables have telescoping legs that create an attractive profile at every height, over their entire range of 26" to 52". A generous load capacity ensures that every L-Base can accommodate a typical user's equipment and supplies thus selecting an L-Base will leave you looking good and feeling even better.

UNIFY TABLE - SPECIFICATIONS

General

Tables ship fully assembled. Tables are listed to applicable UL standards and requirements by Underwriters Laboratories, Inc.

Lift Mechanism

Tables fold and open in one fluid motion, assisted by a combination of pneumatic cylinders and a torsional energy storage system. This combination ensures safety and ease of use through a controlled, effortless operation. The table stays in a teepee position for easy handling. Torsion-bar-only assists or spring assists are not to be used.

Tops and Benches

Tabletops and benches are of solid core warp-resistant construction. Center core is 5/8" thick 45# high-density particleboard. A .040 high-pressure laminate face is used for the top surface with a balanced high pressure laminate backer for the bottom surface. Tabletops and benches are attached to the table frame with deep thread screws; expansion rivets are not to be used. Corners have a 1 1/2" radius.

Benches

Bench supports are robotically welded steel construction of 14-gauge tubular frame steel with 6" square, heavy-duty 11-gauge steel plates welded to uprights. Benches are secured to steel plates with deep thread screws. Each split-bench requires two plates. Full benches for 8' tables require two plates; full benches for 10' and 12' tables require three plates. No field assembly required.

Stools

Stool supports are robotically welded steel construction consisting of a 14-gauge tubular frame with 6" square, heavy-duty 11-gauge steel plates welded to uprights. Poly stools are attached to the steel plate with deep thread screws. Thermoset hard plastic stools are attached with carriage bolts. No field assembly required. Stools are one of the following:

A. Poly: High-impact polypropylene stools of heavy-duty construction with ribs to reinforce points of stress. Edges are rolled for comfort and strength. Front is textured and color permeates stool. White marks may occur on the stool top at attachment points but do not alter the structural integrity of the table or stool. Stool is 13" diameter.

B. Thermoset Hard Plastic: Highly durable thermoset hard plastic stool seats of molded melamine and wood flour mixture are available. Seats are scratch-resistant with color permeating through seat. Stool is 13" diameter.

Edges

Tabletop and bench edges are finished in one of the following:

A. Bullnose edge: (Flat vinyl T-edge) Edges are banded with an abrasion-resistant vinyl bullnose molding. The barbed "T" design is inserted into a routed groove in the solid particleboard top and held in place with nails driven from the underside, spaced approximately 8-10" apart.

Bullnose Edge

B. Perfect Edge: Made of 1/4" thick by 3/4" high cast black polyurethane. The Perfect Edge is mechanically and chemically bonded to the table core and chemically bonded to the laminate surface edge, providing a superior, permanently sealed barrier to moisture, dirt, and bacteria penetration.

Perfect Edge
(Lifetime Top
Warranty)**Frame Finish**

Frame finish is one of the following:

A. Powder-Coated Finish: Epoxy powder coating is electrostatically applied. The dry coating is fused and cured in a baking oven to form a smooth, continuous film. Finish is chemical-resistant, hard, tough, and chip/mar-resistant. The standard finish is black.

B. Chrome Finish: Bright and semi-bright duplex nickel-chrome is applied to the frame in a twenty-two step process, creating a superior surface finish that is extremely resistant to staining, scuffing, scratching, and corrosion.

Locks

Gravity lock constructed of 3/8" solid steel rods engages automatically into slots in apron hinge, eliminating the possibility of folding unexpectedly. The exclusive storage lock is gravity operated for automatic engagement and semi-concealed to prevent accidental release. Release of gravity and storage locks is possible from either side of the table.

Glides

For increased surface area and durability, non-marring 1.25" x 12" glides made of nylon plastic material are standard. Set of eight per table.

Casters

Large 4" diameter heavy-duty hard rubber swivel casters provide easy and safe maneuverability. When the table is in use, casters lift off the floor to prevent the table from rolling. To avoid tripping hazards, casters do not extend beyond the outer edge of the tabletop when in the open position. Tamper-resistant caster covers are used to prevent the trapping of dirt, dust, or food. Casters are self-lubricating.

RECTANGULAR TABLE WITH SEATS

Unify's gravity down-lock assures safe operation and keeps tables in the open position. Sufficient clearance between tops prevents pinched fingers.

Stools come in a variety of colors of polypropylene or corex "hard plastic".

Stools are attached to a heavy 8-gauge, metal base plate. This provides greater strength, durability, and stability.

Fingertip control and effortless folding are the results of Unify's exclusive combination of pneumatic lift assist and torsional energy storage system.

Carefully engineered casters add stability and maneuverability. The caster support has a sleek tamper-resistant cover that won't trap dust, dirt, or food and won't scuff shoes.

Unify Tables move safely through standard door openings. Seats store parallel to the tabletop to minimize dust built-up during storage.

Unify Rectangular Tables with seating are strong, durable, and extremely mobile tables. Available in either bench or stool styles, they are manufactured of solid core warp-resistant construction. Frames are solid, fabricated with a welded unitized construction, and integrating all structural steel members into a self-supporting unit.

Tables open and fold in one fluid motion due to a combination of pneumatic cylinders and a torsional energy system. This system, coupled with a proprietary storage lock that is spring-loaded for automatic engagement means lifting, locking, and moving the tables is safe, secure, and easy.

Ordering details:

LXX = Table surface laminate choice.

EXX = Table surface edge choice.

BLXX = Bench surface laminate choice.

BEXX = Bench edge color choice.

SPXX = Stool color choice. (Polypropylene, 13" diameter, rolled edge)

SXX = Stool color choice. (Thermoset hard plastic, 13" diameter)

ROUND TABLE WITH SEATS

Split Bench

Unify's floor glide is available in standard non-marring nylon or stainless steel that won't accumulate grit which can scratch tile floors.

When tables are open, weight is off the casters, preventing unwanted rolling or incidental movement of the tables.

There is an ample amount of legroom along with obstacle-free seating with Unify's stool option.

Before the table can be fully opened, the semi-open safety lock must be purposely released. The gravity lock down automatically engages into slots in the hinges, preventing the table from unexpectedly folding.

Unify's unique design stores stool seats parallel to the tabletop, discouraging children from climbing and minimizing dust build-up during storage.

Unify's round table design promotes interaction among occupants.

Unify Round Tables with seating promote table interaction, making them perfect for foodservice use, group project settings, or general cafeteria use. Available with bench or stool seating the circular design allows for obstacle-free access to seating, and allows for greater versatility as well as room configuration maximization.

Manufactured specifically to withstand the rigors of daily use, these tables fold and roll easily, and nest together for compact storage.

From stationary to mobile in a matter of seconds, Unify Round Tables offer a torsional energy storage lift mechanism, an exclusive spring-loaded automatically engaged storage lock, and large 4" heavy-duty rubber casters for safe, secure, and easy maneuverability.

TABLES WITHOUT SEATING

The high value, vinyl bullnose (top) edge is extremely durable. Perfect Edge (bottom) provides superior edge protection and permanently seals the top.

To avoid tripping hazards, casters do not extend beyond the end of the table when in the open position.

For safety and convenience, the storage lock engages automatically when the table is folded and can't move out of correct alignment. The lock release is easily accessible from either side of the table.

Table frames are fabricated using a welded unitized construction, integrating all structural steel members into a self-supporting unit. All legs operate from the unitized frame, not the table-top.

T-legs increase knee room and seating capacity around the table and eliminate the need to straddle table leg uprights, making it wheelchair accessible.

Unify seatless tables are easy to handle, yet tough enough to endure years of everyday use. The torsional energy storage system creates controlled, effortless lifting operation, and means one person can open, close, and move the units with ease. The 4" diameter casters provide easy and safe maneuverability and lift off the floor when table is in use to provide extreme table stability. Because the tables include casters and stores compactly, there's no need for bulky table carts.

MODULAR OFFICE SYSTEMS

PANELS, DESKS, FILING CABINETS, SHELVING AND MORE

POWERWORKS® PANEL SYSTEM

The PowerWorks® Panel System is modular in nature, designed for office environments that require frequent reconfiguration. Powerworks' building blocks of design are also just the tools for teams that want to think outside of the box of the typical workstation. Using multiple panel heights in divider walls provides privacy without stifling communication and adds visual appeal. The modularity of PowerWorks panels stems from separate frame, tile, and trim systems that assemble entirely with only a rubber mallet. A screwdriver and wrench are required to assemble overheads and install worksurfaces. A pre-wired power system can be run in the modular units at four standard heights. Hundreds of data cables can be managed throughout the panel system. PowerWorks accommodates all standard types of cables. PowerWorks also supports a Modular Data System. Additional furnishings, such as desks, are available from our FlexStation Desking Systems product line. Mobile filing cabinets and office chairs will complete your design.

The PowerWorks frame is based on only four basic parts (the full vertical post, half vertical post, corner connector block, and horizontal rail). Horizontal rails are designed to be added and removed without disturbing the vertical posts or power/data cables managed throughout the system. All cables are laid into the system without threading through the frame to greatly enhance the ability to reconfigure the system with minimal disruption and downtime. Vertical posts can later be stacked one on top of another to easily change panel height.

Panels come in different styles to offer the user complete control over the office environment. All three styles are based on the same basic parts so they can easily be mixed and matched to maximize flexibility and value. The size of the panels range from 12" to 60" in width and 30" to 84" in height.

- Monolithic, which consist of full fabric tiles
- Segmented, consisting of size choices of segmented fabric tiles – allows for multiple fabric styles and colors to be used
- Stackable styles
- Full glass panels
- Half glass and half monolithic style
- Half glass and half segmented style

Additional accessories include doors, rolling screen door, door threshold, acoustic or open tiles, various work surfaces that can be hung on the panels themselves, keyboards and drawers, shelves and cabinets plus mobile filing pedestals.

FLEXSTATION WORK SURFACES

GENERAL INFORMATION

Basic Work Surfaces (WBW)

Adj. Keyboard Pad Work Surfaces (WAK)

Transitional Work Surfaces (WCT)

FEATURES

Solid core top	•	•	•
Plastic laminate surface	•	•	•
Flat vinyl T-molding	•	•	•
Powder-coated legs	•	•	•
Seam-welded tubular steel frame	•	•	•
Chrome plated glides	•	•	•

Transitional Leg

Transitional leg bases are 6 inches shorter than standard leg bases for greater leg room and chair clearance when two surfaces are joined. When seated at the worksurface, "right" or "left" refers to the individual worksurface, not the assembled workstation. Cannot be ordered for an individual, free-standing worksurface.

Transitional Leg Guideline

Please specify with any of item that prompts specification

SPECIFICATIONS

Streamline Work Surface Frames

Heavy-gauge seam-welded powder-coat finished tubular steel. Horizontal tabletop support tube, 16-ga., 1" x 1" steel. Floor support member, 16-ga., 1 1/8" x 1 3/4" belly rectangular steel tube. Top floor support tubes are welded with 2 steel tube vertical leg members. The rear vertical support is 16-ga., 1" x 2" steel tube. The front vertical support is 16-ga., 1" x 2 1/8" bullet oval steel tube. Leg interior provides concealed management of wire from floor to work surface. Adjustable chrome-plated glides. Powder-coat finish on legs. There are three frame style options. The receptacle clearance beam option (WB) is a 16-ga., 1/2" x 1 1/2" steel tube cross brace, welded to two 14-ga., L-brackets for support. The modesty panel

(WM) is 19-ga. steel. It is located 1 1/2" from the rear of the work surface. The modesty panel is 15.31" on the 29" tables.

Work Surface Top

1 1/4" thick top, high-pressure plastic laminate top surface with phenolic backing sheet. Available with PVC T-molding.

Surface Splice Plates

Die-formed steel splice plates attach to underside of units with screws. Two splice plates are provided with all surfaces. Standard connector plates provided when surfaces are of common height.

Adjustable Keyboard Pad Work Surface

Die-formed L-brackets attach to table and keyboard pad with screws. Threaded hand knobs lock keyboard pad in position. Available with PVC T-molding.

Weight Capacity

All FlexStation® tables meet or exceed BIFMA 5.5 Standards.

Horizontal Wire Management Trough

Horizontal wire management trough (WW) is located behind the modesty panel and is constructed of rigid PVC with 1" deep by 1 1/2" high openings for cables.

Guest Modesty Panel

The Guest Modesty Panel for P Shaped, Piano, and Square Shoe, peninsula work surfaces is constructed of 19-ga. steel. It is located 4.5" from the guest side

of the peninsula work surface and is attached using 6, #10-1" screws. It is 9" high and comes in lengths to fit 60" through 84" peninsula tops.

Other

3" x 2" wire management port provided for all tables on both sides at top of modesty panes. They also have scuff plates. Each leg comes with adjustable chrome-plated glides. All wireway options connect to existing openings at top of modesty panels with metal channel for wire management. WW designation at end of number notes that item comes with wireway. When ordering please specify transitional legs, base color and laminate.

All fixed height units are 29" unless otherwise noted.

FLEXSTATION WORK SURFACES

GENERAL INFORMATION

Starter Unit

Adder Unit

Finisher Unit

Starter Unit - Each shared leg workplace requires a starter unit to be placed at one end of the table string. The starter unit is comprised of a worksurface, modesty panel, standard leg and transitional leg. Only one starter unit is required in a single table string.

Adder Unit - When three or more tables make up a table string adder units are used to make up the middle portion of the table string. The adder unit is comprised of a worksurface, modesty panel and transitional leg.

Finisher Unit - The final table specified in a table string is the finisher unit. This unit is comprised of a worksurface, modesty panel and a standard leg.

All three units are joined together by the transitional legs, which are centered between the two worksurfaces and attach accordingly. When specifying the shared leg option, it is possible to specify tables with the LapTop Garage® in the same table string as other tables without LapTop Garages.

Streamline Leg

Crank Adjustable

Electric Adjustable

HOW TO ORDER

Product Number Specification

1. List the base product number that corresponds with the exact product dimensions selected.
2. Read product description copy to identify the options that need to be specified.

PVC T-molding edge color codes:

- Black BL
- Blue Grey GR
- Sand SA
- Warm Grey WG

Laminate offering and codes:

Laminate options: <https://csi.nebraska.gov/laminate-options>

Frame and Leg option colors:

<https://csi.nebraska.gov/color-options>

Codes for location and type of transitional leg*:

- S = Standard (both standard legs)
- R = Right (right transitional leg)
- L = Left (left transitional leg)
- B = Both (Both transitional legs)

* Note: If ordering Basic Work Surfaces as a freestanding unit, or if only one side connects to a transitional work surface, the "B" option for both transitional legs is not available.

**The directions is calculated as if sitting at the unit.

Transitional Leg

Transitional leg bases are 6 inches shorter than standard leg bases for greater leg room and chair clearance when two surfaces are joined. When seated at the work surface, "right" or "left" refers to the individual work surface, not the assembled workstation. Cannot be ordered for an individual, free-standing work surface.

FLEXSTATION WORK SURFACES

CORRECT LEG BASE CONFIGURATION INFORMATION

FlexStation Work Surfaces are preassembled at the CSI factory. Choosing the correct leg base configuration for individual work surfaces or the entire workstation is very important in order to avoid additional cost and time delays.

There are two leg bases available: **standard** and **transitional** (left and/or right)

Standard leg bases are used for stand-alone work surface or at the end of a workstation (consists of two or more worksurfaces connected side-by-side).

Transitional leg bases are used where two work surfaces connect together. Transitional leg bases are 6 inches shorter than standard leg bases for greater legroom and chair clearance when two surfaces are joined. When seated at the work surface, “right” or “left” refers to the individual work surface, not the assembled workstation.

Below, the standard leg bases are shown on the left and right side of the workstation and transitional legs on the inside of this workstation.

A workstation made of three Basic Work Surfaces connected side-by-side will have the following leg base configuration: The first work surface will include a standard leg base on the left and a transitional leg base on the right. The middle work surface will include transitional leg bases on both sides. The last work surface will include a transitional leg base on the left side and a standard leg base on the right.

During the design phase, your CSI Sales Representative will help you identify the correct leg base configurations as well as what work surfaces connect together to form a workstation.

STAND ALONE WORK SURFACE

- How to use
 - Stand alone with standard leg bases only
 - Can be set up as part of a workstation but cannot be connected directly to another work surface
- Rectangular surface with straight front
- Height adjusts from 27"-43"
- Modesty panel models are designated by the M after inventory number
- Choose the Laminate, T-Molding Color, and Frame Color
- Includes one or more rectangular grommets, with your choice of color. If you do not want grommets please specify to your CSI Sales Representative
- Each leg assembly is comprised of 1 3/8" x 2 3/4" x 16-gauge steel tube that telescopes inside a 2" x 3" x 14-gauge steel outer leg tube. Nylon bushings ensure a smooth, telescoping action between the tubes.
- The table is manually adjustable from 27" to 43" by turning a crank. The crank raises or lowers the table at a rate of 1 inch per 10 revolutions.

STAND ALONE WORK SURFACE

- How to use
 - Stand alone with standard leg bases only
 - Can be set up as part of a workstation but cannot be connected directly to another work surface
 - Must be placed close to an AC outlet
- Rectangular surface with straight front
- Height adjusts from 24-51"
- Adjustable glides
- Work surfaces are undersized by 1 ¼" from side-to-side and ½" from back-to-front from the stated dimensions
- Modesty panel models are designated by the -M after inventory number
- Choose the Laminate, T-Molding Color and Frame Color
- Includes one or more rectangular grommets, with your choice of color. If you do not want grommets please specify to your CSI Sales Representative.
- Each leg assembly is comprised of a triple telescoping steel tube with an overall dimension of 4.3" x 2.28". Extruded aluminum covers are attached to the back of the upright tubing for visual appeal. The table is electrically adjustable from 24" to 51" by pressing a button. Motors raise or lower the table at a rate of 1.7 inches per second. The motors drive a lifting mechanism inside of each leg to provide a uniform lifting force to the work surface, regardless of the loading condition. The parallel connectors synchronize the motors electronically. The controller keeps track of each motor revolution, and ensures that the motors remain in perfect synchronization. The user interface occurs at the switch. The deluxe includes three memory presets and a visual display indicating the height of the work surface.

- Available with a single (four sizes available) or double (three sizes available) doors
- Not compatible with all work surfaces
- Enamel finish on metal parts
- Cabinet doors have laminated surface with PVC edge
- Concealed vertical wire management
- Secured to steel legs by concealed mounting brackets
- Field installable to compatible Flexstation Desking Systems
- Key-different (standard) or key-alike (optional) to match other overheads and/or pedestals (Specify) which items need to be key-alike on order
- For use with fixed height workstations only
- Overhead allows for 18 ½" clearance above work surface
- Overall height is 34 ¼". Depth is 14.5"
- Cannot be mounted on tables with casters
- Select the size of overhead. Length of overhead must be identical to length of work surface. 54", 60", 66" and 72" overheads consist of two doors

- Select size of overhead. Length of overhead must be identical to length of work surface

TUCK LIGHTING

For under-cabinet task lighting, blending in can be the first mark of standout success. That is exactly the case for Tuck LED lighting. Its low profile design and intuitive controls mean that after installation, you may not give the fixtures a second thought.

What you will notice is the improved lighting they provide. Tuck banishes the dark corners beneath transaction counters and overhangs, turning them into well-illuminated, functional workspaces. Its LEDs emit an energizing bright white light that provides faithful color representation.

Available in 12", 17", 31", and 44" lengths. Multiple fixtures can be interlinked with the purchase of adder lights to create custom or longer runs. Interlinking allows a chain of fixtures to be powered by the starter light and controlled as one. View the chart online or contact your sales representative for more information.

Tuck's on-off switch also contains a capacitive touch dimming control. Touching the control adjusts the light level continuously from 100% to 15%. Maintaining the perfect setting day after day is made easier by the last state memory feature. Energy conscious users will also appreciate an automatic shut-off feature.

MODULAR OFFICE SYSTEMS - QR CODES

The QR Codes below will take you to various links on our website. To use the codes - open your smartphone camera or download a QR Code reader app. After opening the camera or app place it over the code and it will automatically scan the code and the correct link will appear on your screen. If you have questions about these options or the design process with the Modular Office System products contact your CSI Sales Representative.

FILING CABINETS

LATERAL, VERTICAL, PEDESTAL

PRECONFIGURED LATERAL FILES

GENERAL INFORMATION

Our lateral files are designed on a 1 ½" module to provide an unparalleled degree of internal flexibility. Interior components are available 1 ½", 3", 6", 7½", 9", 10 ½", 12", 13 ½" and 15" high. These components are designed to efficiently accommodate virtually any filing and storage requirement.

Preconfigured Units

To simplify the specification process, we offer preconfigured files in the most popular sizes with the most popular internal components. These units are assembled using standard components. Lateral files can be field-retrofitted and updated by specifying componentry from the Custom-Built section of this price list.

Height

Lateral files are available in 40 standard heights. Heights include 1/8" allowance for leveling glides fully recessed.

Depth

All lateral files are 18" deep.

Width

Lateral files are available in three standard widths: 30", 36" and 42".

Drawer Dimensions

Refer to the illustrations on next page for the range of drawer sizes and the height clearance of each.

Model Numbering System

Each character in the basic model number corresponds to a specific unit feature.

CONSTRUCTION AND STANDARD FEATURES

Basic Shell

The shell is common to lateral file units. Uprights punched to accept interior components on 1 ½" centers. Uprights and top and bottom reinforcements are welded into rigid "boxframe". Constructed of 18 and 20-gauge steel. Seamless back and top with reinforced corners.

Illustrated shell heights include 1/8" for adjustable glide in recessed position.

Doors/Drawers

Drawer fronts, 20-gauge steel with full-width flush inset pull and label holder. Fronts are screw-mounted to roll-out shelves to build drawers. Roll-out shelf body, 20-gauge steel slotted on 1" or 1 ½" centers to accept dividers. Leading edge formed to provide pull; center section offset for additional strength. Shelf ends, 18-gauge steel, notched to accept hanging folder bars. Each roll-out shelf equipped with two heavy-duty, three-section, ball bearing suspensions. Components have

been tested to accept loads of 125 lbs. This exceeds ANSI/BIFMA X5.2-1989 standards for lateral files.

Hinged door, 20-gauge steel, double-wall construction. Equipped with outward stop to prevent contact with adjacent cabinet and full height vertical flush inset pull.

Shelves

Blank shelf, 22-gauge steel, formed 1" thick on front and back edges. End Tab Shelf, 22-gauge steel shelf and back, 20-gauge sides. Shelf offset along width to increase strength. Slotted on 1" increments to accept plate dividers.

Lateral files meet or exceed ANSI/BIFMA X5.2-1989 standards.

Receding Door

20-gauge steel with full-width flush inset pull and label holder. Equipped with sound absorber. Doors have guiding mechanism fitted with nylon glides to prevent metal-to-metal contact and ensure effortless operation.

The diagrams on the following page identify various shelf and drawer combinations and related height clearances behind a receding door. The diagrams illustrate typical use. Additional interior options can be installed behind a receding door.

Note: Dimensions have been taken from the front raised edge of the roll-out shelf.

Accessories

Plate dividers, 18-gauge steel, notched to lock into shelf.

Folder bars, 12-gauge steel, offset to maximize strength. Suspended binder frames are constructed of 14 to 18-gauge steel. Screw-mounted to cabinet. Can be used behind 13 ½" and 15" receding doors and hinged storage cabinets.

Adjustable Glides

Lateral files and cupboards are supplied with four adjustable glides. The glides can be adjusted from inside the cabinet using a ¼" hex socket wrench, or from outside the cabinet using a 7/8" wrench. Standard glides provide ¼" adjustment; longer glides are also available. Overall cabinet heights include the glide in its recessed position.

Locks

Locks are standard on all units. The lock is a high-security single-bit type. Units are standard with random keys in a range of 100 different numbers. Specific keying combinations are available. This information must be included with the order. Locks can be master keyed.

INSTALLATION

Caution Labels

Caution- and safety-related information is contained on a peel-off label affixed to the front of cabinet. This label is to be removed by the customer. Caution information is also permanently affixed to the left side of the top drawer. Both labels contain important installation and loading information.

Installation Information

Complete instructions on the proper installation and use of files are provided in each file shipped.

The instructions refer to correct methods of leveling, ganging and loading.

Counterbalance weights should be installed in all single freestanding files.

Standard Paint Finishes

Storage products are chemically prepared prior to painting. This process enhances top coat bonding. Standard top coat finishes are primarily electrostatically applied powder and/or medium solids ALKYD baking enamel. Both the dry application powder coat and wet application enamel are fused and cured in a baking oven to provide a stain and scratch resistant surface.

All inside and outside shell and drawer front surfaces are painted with the same specified paint color.

Interior components and accessories are Dark Tone. Mechanical components are black chrome-plated.

Contact CSI Sales to review Paint Swatch Card for colors.

PEDESTAL

GENERAL INFORMATION

Pedestals are available in sizes and drawer combinations to suit any personal storage requirement. Freestanding and mobile units are designed to fit below most work surfaces.

Preconfigured Units: To simplify the specification process, we offer preconfigured pedestals in the most popular sizes with the most popular internal components. These units are assembled using standard components.

Height: Two pedestal styles are available. Heights include 1/8" allowance for leveling glides fully recessed. Freestanding: 22 3/8", 25 9/16" and Mobile: 24 5/8", 27 9/16".

Depth: Products are available in three standard depths: 17 5/8", 21 5/8", and 27 5/8".

Width: All products are 15" wide.

CONSTRUCTION AND STANDARD FEATURES

Basic Shell: Twenty-gauge steel body with 18 and 20-gauge steel top and box frame front and back uprights. Uprights are notched in 3" intervals for the drawer for suspension mounting.

Drawers:

Fronts: Two-piece metal construction. Twenty-two gauge steel outerskin welded to 22-gauge inner liner. With full width inset pull. Drawer fronts overlap front of pedestal.

Three-inch (pencil) drawer: Single wall two-piece construction. Body 22-gauge; back 22-gauge. Operates on two-section 3/4" extension ball-bearing suspension.

Six-inch (box) drawer: Single wall two piece construction. Body 22-gauge; back 22-gauge. Operates on two-section 3/4" extension ball-bearing suspension.

Twelve-inch (file) drawer: Single wall, two-piece construction. Front liner 20-gauge; body 22 gauge. Mounted on full extension slide arm suspensions.

Adjustable Glides: Freestanding and floor supporting pedestals include four glides, adjustable from outside the cabinet.

Counterbalance: Counterbalance weight is standard in some mobile units and is recommended in all freestanding units.

Caster Kit: Consists of four twin-wheel hooded casters. Front two casters are locking; rear two casters are non-locking. A fifth wheel is included in some mobile units for additional stability.

Locks: Locks are standard on all units. The lock is a high-security single-bit type. Units are standard with random keys in a range of 100 different numbers. Specific keying combinations are available. This information must be included with the order.

Paint Finishes: Storage products are chemically etched prior to painting. This process enhances topcoat bonding. Standard topcoat finishes are primarily electrostatically applied powder and/or medium solids ALKYD baking enamel. Both the dry application powder coat and wet application enamel are fused and cured in a baking oven to provide a stain and scratch resistant surface.

All inside and outside shell and drawer front surfaces are painted with the same specified paint color.

Interior components and accessories are Dark Tone. Mechanical components are black chrome-plated.

VERTICAL FILES

GENERAL INFORMATION

Vertical files are designed in sizes to suit virtually any paper storage requirements. 11" high drawers are available in combinations of 2, 3, 4 or 5 drawers. Vertical files are available in either 15" width for letter-size paper, or 18" width for legal size paper. Drawers come preconfigured with either folder bars for hanging files, or compressor followers. If both accessories are desired in one drawer, order the unit with compressor followers, and separately order one set of folder bars for file hanging for each drawer (the part number for the folder bars is G-KF-V30FB, the price is \$14.00 per set, one set per drawer is required).

METAL BOOKCASES

GENERAL INFORMATION

Bookcases have been designed to optimally store standard three-ring binders on all shelves. Shelves are adjustable on 1" increments to accommodate other media storage needs.

The units described on the following pages are to suit the most common storage requirements.

Model Numbering System

Each character in the basic model number corresponds to a specific unit feature.

CONSTRUCTION AND STANDARD FEATURES

Basic Shell

Shells are unique to bookcases, featuring a flush inner liner. The liner is punched to accept shelf brackets on 1" increments, starting approximately 8" from the bottom of the cabinet and terminating approximately 8" from the top of the cabinet. The liners, top and bottom reinforcements are welded into a rigid box frame. The shell is constructed from 18- and 20-gauge steel, with multiple strategically located offsets to maximize strength. The back is seamless. All corners are reinforced. Illustrated shell heights include 1/8" for adjustable glide in recessed position.

Adjustable Glides

Bookcases are supplied with four adjustable glides. The glides can be adjusted from inside the bookcase using a 1/4" hex socket wrench, or from outside the bookcase using a 7/8" wrench. Standard glides provide 3/4" adjustment; longer glides are also available. Overall bookcase heights include the glide in its recessed position.

Shelves

Shelves are constructed using 22-gauge steel, formed 3/4" thick on the leading and trailing edges to enhance strength.

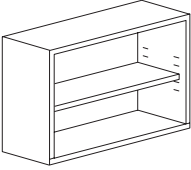

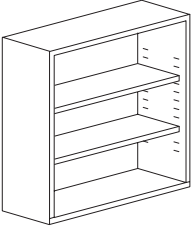

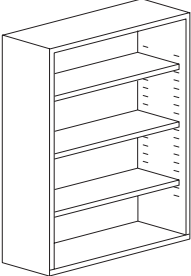

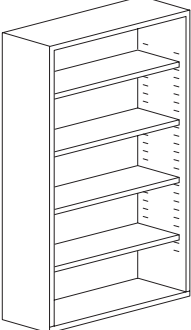

Paint Finishes

Storage products are chemically prepared prior to painting. This process enhances topcoat bonding. Standard topcoat finishes are primarily electrostatically applied powder and/or medium solids ALKYD baking enamel. Both the dry application powder coat and wet application enamel are fused and cured in a baking oven to provide a stain and scratch resistant surface. All inside and outside shell and shelf surfaces are painted with the same specified paint color. Colors shown in the current swatch card are standard and are available where specifications call for painted surfaces.

Contact CSI Sales to review Paint/Molded Plastic/Edge Swatch Card for colors.

VINI FILING CABINETS

GENERAL INFORMATION

Vini® is an active and accessible storage collection designed to augment systems offerings and provide more relevant and cost-effective workstations for applications within vertical markets.

The Vini® collection includes lateral files, freestanding, and mobile pedestals. Nominal and actual dimensions are listed with each item to the nearest 1/16".

All Vini storage models meet or exceed ANSI/BIFMA X5.9-2012 standards.

CONSTRUCTION AND STANDARD FEATURES

All Vini® storage units are constructed of steel. Box and file drawers feature smooth riding, ball-bearing slides. Box drawers feature a three-quarter travel. File drawers feature a full extension. Units feature ADA-compliant nickel-plated loop pulls.

Glides

Freestanding pedestals feature non-adjustable glides that allow units to match the height of mobile units.

Locks

Locks are standard on all units. The lock is a high security, single bit type. Units are standard with random keys in a range of 100 different numbers. Specific keying combinations are available at no additional charge. This information must be included with the order. Locks can be master keyed.

All locks have removable and interchangeable cores. This feature provides for onsite custom keying. Locks can be supplied with the cores installed or shipped separately. To order cores for field installation, specify "lock cores not installed" on order.

Order must specify the total quantity of specific key-numbered locks.

Example: 30 Cores
3 keyed alike
10 keyed alike
17 keyed alike

Paint

All inside and outside shell and front surfaces are electrostatically powder-coated. All interior drawer bodies are painted black. Colors are listed in the Color Addendum.

Lateral Files

Lateral files are offered with 12" drawers and receding doors, in three widths: 30", 36", and 42". Refer to the price list for standard configurations. Uprights and top and bottom reinforcements are welded into a rigid box frame. Seamless back and top feature reinforced corners.

Lateral File Adjustable Glides

Lateral files are supplied with four adjustable glides. The glides can be adjusted from inside the cabinet using a 1/4" hex socket wrench, or from outside the cabinet using a 7/8" wrench. Standard glides provide 3/4" adjustment. Overall cabinet heights include the glide in its recessed position.

Pedestals

Mobile and freestanding units are offered in box/box/file and file/file drawer configurations. Mobile units are also available in a box/file configuration. Pedestals are shipped for front-to-back letter-sized filing. Pencil tray, if desired, is specified separately. A counterbalance weight is included in file/file mobile and freestanding units for stability.

Colors shown in the current swatch card are standard and are available where specifications call for painted surfaces.

BUILDING SIGNS

We make exterior building signs of any size and shape at a great price and free delivery throughout Nebraska. We can design the sign for you or you can provide us your design. CSI will not install the sign or provide any posts or other materials required for the installation.

There are three types of building signs we make: Aluminum (similar to Road Signs), Bebond and AlumaCorr.

- **Aluminum** Signs are the standard road signs made from an aluminum sheet with a thickness of up to .10". Excellent choice for one-sided signs.
- **AlumaCorr** is a great alternative to Aluminum Signs with a thickness of 0.20" (0.40" also available). Better choice for two-sided signs. It consists of aluminum sheets on both sides with a corrugated polypropylene core. It is known for its rigidity, it is lightweight, resistant to scratches, will not corrode or rust and it lasts longer than aluminum signs!
- **Bebond** is a solid core aluminum composite panel (ACP). It is durable with solid core which prevents bowing, warping, swelling and delamination. The flat, smooth surface is ready for paint, inks, vinyl letters are more. It is excellent for general signage, including highway signs and outdoor building signs.

OUTDOOR FURNISHINGS

BENCHES, TABLES AND GRILLS

METAL BENCH

CSI's metal benches are perfect for a variety of outdoor seating uses and are available in sizes from 2' to 8' in length. These metal benches are constructed out of a 10 gauge steel top and steel tubing frame and are finished with a premium powder coating that is exceptionally durable and hard-wearing.

<u>ITEM NUMBER</u>	<u>DESCRIPTION</u>	<u>PRICE</u>

BICYCLE RACK

This rack is perfect for parks, schools, or any other area frequented by cyclists. Constructed from 2" x 1" steel tubing for the legs. Vertical Bars are made of 1/2" steel rods. Holes drilled in the feet may be used to bolt the rack to the ground. Dimensions: 36" D x 61" W x 31" H. Finished with a high quality outdoor rated enamel coating that is exceptionally durable and hard-wearing.

Available in 27 color options. Powder coating for extra durability is available as an upgrade.

<u>ITEM NUMBER</u>	<u>DESCRIPTION</u>	<u>PRICE</u>
G-OTH-900L	Bicycle Rack	\$595

PICNIC TABLES

These wooden picnic tables are made of Alkaline Copper Quaternary (ACQ) treated lumber. ACQ lumber resists rot, fungal decay, and termites. Wooden picnic tables are coated with a “Clove Brown” WEATHERSCREEN stain to protect against water damage, mildew growth, UV damage, and fading.

ACQ treated lumber is generally expected to have a life expectancy of 10 to 15 years assuming retreatment of WEATHERSCREEN stain every 2 to 5 years. Recycled Plastic picnic tables are a brown 100% high-density polyethylene and formed

using a combination of post-consumer and post-industrial plastics. There are no toxic chemicals in this product. Made to withstand nature’s tests!

Frames for both the wooden and recycled plastic picnic tables are made of a heavy-duty 1 ½”, 12 gauge steel frame coated in a black acrylic modified enamel. Replacement kits are also available for all picnic tables. Kits come with all the hardware and planks needed.

Planks are not predrilled so you can custom fit and make what was once old new again!

HEAVY DUTY ADJUSTABLE GROUND PARK GRILL WITH FLIP-UP GRATE

This grill is constructed of 10 gauge steel and is finished in heat resistant, non-toxic black enamel. Two heavy-duty angle legs permanently anchor the unit to the ground. Unit measures 28" x 32" on the outside and 25" x 18" grate. The grate adjusts to four positions between 8" and 14", and the side heat panels add strength to the entire unit as well as acting as a heat shield for grate adjustment.

<u>ITEM NUMBER</u>	<u>DESCRIPTION</u>	<u>PRICE</u>
G-PC-151	Heavy Duty Adjustable Ground Park Grill with Flip-Up Grate	\$322

ADA ADJUSTABLE GROUND PARK GRILL WITH FLIP-UP GRATE

This grill is constructed of 10 gauge steel and is finished in heat resistant, non-toxic black enamel. Two heavy-duty angle legs permanently anchor the unit to the ground. Unit measures 34 1/4" x 32" on the outside and 34" x 18" grate. The grate adjusts to four positions, and the side heat panels add strength to the entire unit as well as acting as a heat shield for grate adjustment. Overall height is 37". By filling the grill with 9" of aggregate, this allows for the minimum ADA reach distance to be achieved.

<u>ITEM NUMBER</u>	<u>DESCRIPTION</u>	<u>PRICE</u>
G-PC-152	ADA Adjustable Ground Park Grill with Flip-Up Grate	\$347

ADJUSTABLE STAND-UP OUTDOOR GRILL

Spring coil grips allow effortless adjustment of the grate while food is being prepared. Firebox is rib-reinforced and the structurally reinforced grate is virtually indestructible. Firebox measures 13.75" x 25" and is 8 ½" deep. Grill stands 40" from bottom to the bottom of the grill. The unit fully rotates for draft control and has a theft-proof base adjustment. The unit is black.

<u>ITEM NUMBER</u>	<u>DESCRIPTION</u>	<u>PRICE</u>
F-PC-104	Adjustable Stand-Up Outdoor Grill	\$278

LARGE OUTDOOR GRILL

This grill is constructed of 10 gauge steel and is finished in heat resistant, non-toxic black enamel. The overall grilling area is 36" x 36" or 9 ft²! It includes two grates with spring coil grips, each 18"x36". The firebox has a 3 position adjustable grate that holds the fire coals. The firebox measures 36" x 36" x 9".

Choose one of the two mounting options:

Pedestal Mount: Grill stands on a 25" pedestal mount with a 12" x 12" base bolted to the ground.

Post Mount: The post mount is similar to the pedestal mount and is 61" long.

Optional side shelves are available. They measure 12" x 36".

The unit fully rotates for draft control. Available in black color only.

WALNUT

BLACK

BLUE

*Below are the character amounts approximately to how many can go on a 1-Line and 2-Line 2" X 10" Nameplate with the normal point size for the typeface used.

1-Line Name Plate- 16 Characters, includes spacing.

2-Line Name Plate- 1st Line- 16 Characters, includes any spacing. 2nd Line- 25-26 Characters, including any spacing.

We can change the font size for the longer names and titles. You may request a proof of the typesetting to review.

ENGRAVED HARDWOOD NAME PLATES

These freestanding nameplates add distinction to any desk! All are made of birch hardwood in a traditional Walnut finish. Choose engraved wood lettering (G-GV-983), an elegant gold on black engraved insert (G-GV-985), sleek “reverse engraved” smooth-to-the-touch black on gold, or the unique double-sided wood nameplate.

CLOTHING

SCRUBS

These Scrubs are made with quality fabric and are extremely durable. The fabric is a 7.5 oz. twill that consists of 65% polyester and 35% cotton. The waistband is reinforced. Hems and seams are lockstitched for durability. They are available in two distinct colors, orange, and khaki. A great balance of comfort and durability.

All scrubs come without pockets. One patch pocket per item can be added at no additional cost. Please contact the CSI Sales Department about the placement of pockets.

When ordering, specify size in the following format:

SERVICE DOG VEST

The Nebraska State Patrol plus local Police and Sheriff departments who use canine units will find the new service dog vest very pleasing for their best friend. Cornhusker State Industries line of service dog vests are constructed with the highest quality materials. The safety and comfort of your canine officer is our highest priority.

The basic features include:

- Cordura® Coated Nylon 1000 Denier fabric and polyester netting to be extremely durable and 100% waterproof. These fabrics are exclusively selected by CSI because of their resistance to abrasion, tears and scuffs.
- Heavy duty zippers designed for vigorous use.
- 100% polymer GT Cobra® Buckles have a target load of 500lbs with no metal springs or hinges. These Cobra® Buckles are engineered to withstand the rigors of military, tactical and rescue use.
- Elastic loops on front and each side of the top for mounting tactical lights.

Loop-Fastener Vest is our standard vest with 2" Loop-fastener added to each side and the back half of the top.

Spandex® Vest is our standard vest with Spandex® added to sides to stretch with your canine's growth and movement.

Though the standard vest size is 32" at chest girth and 26" last rib girth with 11" in-between bottom of chest and rib we would rather customize the vest to the size of the dog. We prefer you bring the dog to CSI so we can measure the Chest Girth, Last Rib Girth and Distance from Chest to Rib. If you cannot do that, please provide us with these measurements in inches. Please contact your CSI Sales Representative for questions or more information.

LAUNDRY, FLOOR, SOAPS, CLEANERS,
DISINFECTANTS, SPECIALTY AND MORE

LAUNDRY PRODUCTS

COMMERCIAL LAUNDRY COMPOUND

This synthetic detergent is designed specifically for use in commercial washers within institutional laundries, combining heavy-duty cleaning power and great value.

<u>ITEM NUMBER</u>	<u>DESCRIPTION</u>	<u>PRICE</u>
F-JS-120	25 lb. Carton	\$72.00

POWDERED BLEACH

This organic bleach in a safe, convenient powder form provides constant, uniform bleaching, and excellent stain removal.

<u>ITEM NUMBER</u>	<u>DESCRIPTION</u>	<u>PRICE</u>
F-JS-130	25 lb. Carton	\$68.00

LIQUID BLEACH

The concentrated liquid sodium hypochlorite solution is designed to give you whitening on laundry whites! May be used manually or in conjunction with automated supply systems.

<u>ITEM NUMBER</u>	<u>DESCRIPTION</u>	<u>PRICE</u>
F-JS-521	5 Gallon Container	\$34.00

ALKALI LAUNDRY BUILDER

This hydroxide based alkali is designed for use with heavily soiled items. Use in conjunction with laundry detergent to achieve optimum soil removal.

<u>ITEM NUMBER</u>	<u>DESCRIPTION</u>	<u>PRICE</u>
F-JS-531	5 Gallon Container	\$52.00

LAUNDRY SOUR

This proven liquid laundry sour quickly neutralizes excess alkalinity and adjusts fabric pH, minimizing the potential for skin irritation.

<u>ITEM NUMBER</u>	<u>DESCRIPTION</u>	<u>PRICE</u>
F-JS-541	5 Gallon Container	\$68.00

LAUNDRY SOFTENER

This highly concentrated cationic positive blend is designed to give fabrics a soft, supple hand without yellowing, leaving a clean linen scent. This formula is canola based and made from renewable resources.

<u>ITEM NUMBER</u>	<u>DESCRIPTION</u>	<u>PRICE</u>
F-JS-552	5 Gallon Container	\$56.00

LAUNDRY DETERGENT

This new and improved scent-free liquid laundry detergent has tons of brightening power, but no phosphates for environmentally friendly cleaning.

<u>ITEM NUMBER</u>	<u>DESCRIPTION</u>	<u>PRICE</u>
F-JS-561	5 Gallon Container	\$69.00

FLOOR CARE

TEC/LINE MIST 'N SHINE (READY TO USE)

This ready to use spray buff polymeric treatment is suitable for hard surface floors. Enhance and maintain your floors' surface sheen in one easy step.

<u>ITEM NUMBER</u>	<u>DESCRIPTION</u>	<u>PRICE</u>
F-JS-030	12 Quarts per case (Comes with 1 trigger sprayer)	\$31.00
F-JS-031	4 - 1 Gallon per case	\$24.00

QUICK EZ GLOSS COAT

The heavy-duty, self-sealing floor polish for use with conventional, high speed or ultra high-speed floor machines. Ready to use, easy to apply, and 22% solids make Quick EZ Gloss Coat the ultimate in durability.

<u>ITEM NUMBER</u>	<u>DESCRIPTION</u>	<u>PRICE</u>
F-JS-435	4 - 1 Gallon per case	\$86.00

FLOOR STRIPPER

QUICK EZ STRIPPER (CONCENTRATE)

This no-rinse stripper quickly dissolves even the toughest floor finish and build up, leaving no harsh alkaline residue to block the adhesion of floor finish. May be diluted one (1) quart to one (1) gallon for average needs or may be used at a 1:1 ratio for extreme stripping needs.

<u>ITEM NUMBER</u>	<u>DESCRIPTION</u>	<u>PRICE</u>
F-JS-450	4 - 1 Gallon per case	\$48.00

CARPET CARE

CARPET CARE CLEANER (CONCENTRATE)

This low foam concentrate cleans and deodorizes, leaving no residue to attract soil. Ideal for extractors and bonnet cleaning! Dilution rates: Two (2) ounces to one (1) gallon for extractors; four (4) ounces to one (1) gallon for shampooing and/or bonnet cleaning.

<u>ITEM NUMBER</u>	<u>DESCRIPTION</u>	<u>PRICE</u>
F-JS-210	4 - 1 Gallon per case	\$38.00

SPECIALTY FLOOR

CLEAN 'N PREP (CONCENTRATE)

Just one (1) ounce per gallon of our low foaming cleanser will clean your floors without removing polish! If you like, use at higher dilution rates for deep cleaning. Clean 'N Prep is safe for most surfaces and for use in auto scrubbers.

<u>ITEM NUMBER</u>	<u>DESCRIPTION</u>	<u>PRICE</u>
F-JS-165	4 - 1 Gallon per case	\$27.00

SWEEPING COMPOUND

This highly colored sawdust-like powder prevents dust from escaping as you sweep! A light coating of our treated material attracts and holds dust so that you can make a clean sweep of dirt and grime.

<u>ITEM NUMBER</u>	<u>DESCRIPTION</u>	<u>PRICE</u>
F-JS-900	45 lb. Container	\$26.00

SOAPS

BATH SOAP (UNWRAPPED BARS)

These three (3) ounce white bars are packed economically in cases of 200.

<u>ITEM NUMBER</u>	<u>DESCRIPTION</u>	<u>PRICE</u>
F-JS-283	200 - 3 Ounce Bars	\$52.00

SIMPLY SUDS BODY WASH

Simply Suds Body Wash, our silkiest soap yet, comes in a calming lavender-colored gel with a fresh Aloe scent and is derived from renewable and sustainable natural vegetable resources. Simply Suds body wash can be used in traditional gel hand soap dispensers.

<u>ITEM NUMBER</u>	<u>DESCRIPTION</u>	<u>PRICE</u>
F-JS-304	12 Quarts per case	\$35.00
F-JS-305	4 - 1 Gallon per case	\$45.00

SIMPLY SUDS FOAMING HAND SOAP

This soap is made from the same formula as Simply Suds Body Wash but comes in a perfectly pink colored liquid for foaming hand soap dispensers. Simply Suds Foaming Hand Soap's silky lather is derived from renewable and sustainable natural vegetable resources with a fresh Aloe scent.

<u>ITEM NUMBER</u>	<u>DESCRIPTION</u>	<u>PRICE</u>
F-JS-312	4 - 1 Gallon/Case	\$40.00

CLEANERS AND DISINFECTANTS

CORNHUSKER GREEN GLASS CLEANER (CONCENTRATE)

Want noticeably cleaner glass while being earth-friendly? Our glass cleaner is the product for you! Glass cleaner contains a new detergent system allowing improved cleaning and degreasing of glass. Other features include low fragrance, optimized foam level, kind to your hands, and a blue color indicator to reveal that it has been added to the bucket or spray bottle. High-tech polymeric water softeners condition the water to greatly reduce dirt redeposition. A dirt-resistant invisible coating leaves mirrors, windows, showcases, glass desktops, windshields, chrome, and other reflective surfaces clean and glistening after each use.

Suggested dilution rate: one (1) ounce per one (1) quart; four (4) ounces per one (1) gallon.

<u>ITEM NUMBER</u>	<u>DESCRIPTION</u>	<u>PRICE</u>
F-JS-652	4 - 1 Gallon per case	\$85.00

CORNHUSKER GREEN GLASS CLEANER (READY TO USE)

Same great product as the Cornhusker Green Glass Cleaner Concentrate, but pre-mixed for your convenience.

<u>ITEM NUMBER</u>	<u>DESCRIPTION</u>	<u>PRICE</u>
F-JS-653	12 Quarts per case (Comes with 1 trigger sprayer)	\$24.00

PINE-O-CLEANER (CONCENTRATE)

This concentrated, biodegradable product cleans and deodorizes surfaces while leaving a fresh pine scent behind. Bring a breath of fresh air into your cleaning routine. Suggested dilution rate: two to four (2 to 4) ounces per one (1) gallon.

<u>ITEM NUMBER</u>	<u>DESCRIPTION</u>	<u>PRICE</u>
F-JS-075	4 - 1 Gallon per case	\$62.00
F-JS-076	5 Gallon Container	\$79.00

HOUSEHOLD CLEANER

This chlorinated bleach-based cleaner is the “go-to” solution for cleaning sinks, countertops, pots, and pans, porcelain surfaces, and ceramic wall/floor tile.

<u>ITEM NUMBER</u>	<u>DESCRIPTION</u>	<u>PRICE</u>
F-JS-230	24-24 Ounce Containers	\$56.00

CORNHUSKER BLAZE CLEANER DEGREASER (CONCENTRATE)

Cornhusker Blaze is our highly concentrated, high performing, one-product solution to your institutional cleaning and degreasing needs! Affordable and environmentally responsible, experience the power of purple! Suggested dilution rates: One to two (1-2) ounces per one (1) gallon for light soil applications; two to six (2-6) ounces per one (1) gallon for medium soil applications; six to twelve (6-12) ounces per one (1) gallon for heavy-duty applications; and three to four (3-4) ounces per one (1) gallon for pressure washers. Avoid contact with glass.

<u>ITEM NUMBER</u>	<u>DESCRIPTION</u>	<u>PRICE</u>
F-JS-156	4 - 1 Gallon per case	\$85.00

CORNHUSKER BLAZE CLEANER DEGREASER (READY TO USE)

Same great product as our Cornhusker Blaze concentrate, but pre-mixed for your convenience.

<u>ITEM NUMBER</u>	<u>DESCRIPTION</u>	<u>PRICE</u>
F-JS-155	12 Quarts per case (Comes with 1 trigger sprayer)	\$22.00

SPARKLE BOWL

Great for cleaning toilet bowls, urinals, vitreous surfaces, washbasins, bathtubs, shower stalls, drinking fountains, tile, porcelain, enameled surfaces, and stainless steel. Contains 25% phosphoric acid.

OTHER SERVICES

LIBRARY, LAUNDRY, MATS, PRINTING, BRAILLE,
RECONDITIONING, CABINETRY, GYMS AND MORE

LAUNDRY OPERATIONS

CSI has contracts with county and state agencies to do their laundry, including County Hospitals, County Health Centers, Vets Homes, and some higher education institutions.

CSI picks up the laundry at no cost to the customer. We wash, dry, iron, and fold the laundry. We deliver it back to the customer at no cost.

Here is a non-inclusive list of laundry items: Bath towels, Bath blankets, Washcloths, Bedspreads, Blankets, Top sheets, Fitted sheets, Pillowcases, Clothing protectors (bibs), Patient gowns, Patient pajama bottoms, Robes, Sweatshirts, Scrubs, Aprons, Lab Coats, Jumpsuits, Hot Pads, Mops for to dust, Mop-heads used for floor-scrubbing, Rags and more

csi.nebraska.gov/laundry

FLOOR MAT SERVICE

CSI offers walk-off mat rental and washing services for our contract laundry customers only. This additional service can be incorporated into the routine laundry pickup and delivery schedules.

Classic Brush

Garnet	Onyx	Quartz Sand Trap
Sapphire	Topaz	

Classic Carpets

Autumn Brown	Blueberry Frost	Burgundy Berry
Stardust Grey	Dark Granite	Midnight Blue

Classic Mats

Brownstone	Cranberry	Cabot Grey	Charcoal
Emerald Green	Chocolate	Glen Green	Platinum

CSI will purchase and retain ownership of a mat inventory that is leased out to contract laundry customers. CSI will order a set of 2 mats that will be rotated, to service one facility location. More frequent pickups and deliveries can be accommodated as weather conditions dictate.

CSI will clean and inspect the leased mats during the washing process. Mats that are worn or damaged will be replaced so the facility can expect continual high quality and maintenance-free service.

PRINTING

Is your office copier keeping up with your printing needs? Want to stand out from the rest?

Our state-of-the-art digital press prints full color for a variety of printing requests. Our design team will work with you for all of your print and bindery projects. Contact the Print Shop directly at 402-479-6200 or dcs.csiprintshop@nebraska.gov for a price quote.

For years state agencies, counties, and non-profits have discovered the significant benefits from partnering with CSI. The benefits for you include competitive pricing, high quality and dependability, design and wide selection, large production capacity.

Our skilled workers provide printing production in a variety of printing needs and services including:

Introducing... LASER ENGRAVING SERVICES

The Epilog Fusion Pro 31 is the latest addition to the CSI Print Shop! The new laser allows CSI to easily and quickly customize any award, plaque, or other unique job you can imagine. This machine can engrave on 25 different materials to include acrylic, wood, fabric, plastic, glass and more. A new feature with the Epilog Laser is the PhotoLaser Plus Software which allows CSI to engrave photos on these materials, to give your job that wow factor! For more information contact the Print Shop directly.

REUPHOLSTER SERVICES

CSI can reupholster your old chairs, loveseats, and sofas or other similar products.

Our quality workmanship and materials ensure customer satisfaction. Here is how the process works:

- Contact your CSI Sales Representative to discuss your project
- We may ask you to supply us with photos and dimensions of the item(s) to be worked on.
- If necessary we will visit you to discuss the project at no additional cost.
- If applicable, you must select the fabric from the many choices we offer.
- The CSI Sales Representative will work with a CSI Manufacturing Engineer to provide you with the cost estimate of the project. This process does take a few days.
- We will provide you an estimated completion date.
- If agreed, CSI will schedule a pickup of the items to be worked on.
- When the work is done we will schedule a delivery date.
- CSI will pick up and deliver back (some restriction apply) at no additional cost.

CABINETRY

CSI offers custom-designed cabinetry for kitchen, bathroom, meeting room, or any room where custom design and cabinetry is needed.

Beyond the standard lower and upper cabinets needed for some spaces, we can also design display cabinets as well as storage cabinets to meet your needs. Our customers include schools, libraries, fire departments, churches, and various government facilities.

We offer a free onsite custom-design service which includes:

- Visit by an experienced sales representative and a design engineer
- Discussion of the furnishings required
- Measuring the space to accurately place all furnishing in a computer design
- Discussion of the materials to be used
- Detailed drawings are produced to show 3-D views of the furnishings
- FREE delivery throughout Nebraska - visit our website to read about restrictions with cabinetry setup

BRAILLE

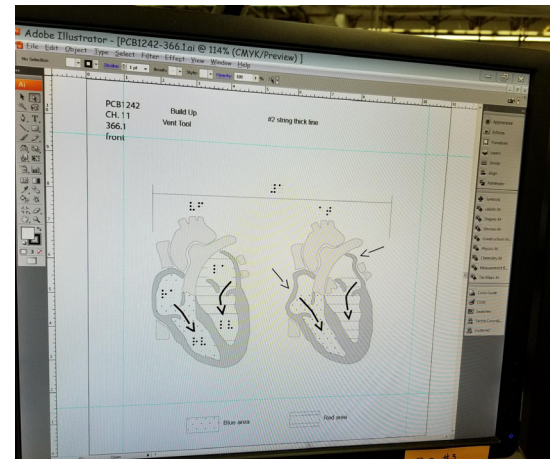

Prose and Cons Braille serves customers across the United States.

We are recognized by the National Library of Congress as a provider of Braille and large print materials. The mission of the Prose and Cons Braille Unit is to providing quality educational materials for school systems across the country to better serve the blind and visually impaired community.

Our Braille/Large Print textbooks are listed on the American Printing House database LOUIS.

Prose and Cons has assisted men with their training and certification by the Library of Congress in Literary Braille. Currently, we have workers certified in Literary Braille, Nemeth Code, Music Braille, and an endorsement in proofreading along with a certified certificate from the NBA Formats Course.

In addition to transcription work, inmate workers also perform essential supportive tasks including the creation of tactile diagrams, thermoform production, Braille writer repair, and Large Print services for math, geography, science, and any other diagram that can be feasibly recreated in a tactile format.

GYM AND ATHLETICS

CSI can custom design a number of gym or athletic department products for schools, universities, and non-profit run athletic fields.

- Custom INDOOR gymnasium padding: Wall, stage, bleacher, pole, corner, post and beam
- Custom OUTDOOR pads for stadiums and fields: Sideline, end zone, and goal post (including Memorial Stadium)
- Custom in-laid sewn designs with logos
- Reconditioning equipment
- Reupholster weight room pads
- Custom locker and training room furniture
- Couches, chairs, and benches
- Signs and banners
- Acoustic panels

Pads are an important safety measure for protecting athletes from hard surfaces. CSI fabricates completely personalized wall, door, column, and corner padding to ensure that the space is safer and functional, yet stunning.

We stitch everything, including the logos. CSI pads are more durable than screen printed or glued pads, which fade and fall apart.

The quality, appearance, and longevity of CSI products is unparalleled and worth the investment.

Display your school pride! Let CSI design custom padding or refurbish your pads to support your branding efforts.

Materials:

- High-quality vinyl durability rating passes a 1,000,000 double rubs abrasion test
- 59 color options available (visit our website)
- Up to 3" thick foam with 7/16" OSB wood backing

WARRIORS

CSI WARRANTY, TERMS, CONDITIONS AND ORDERING INFORMATION

PRICING: CSI's prices are subject to change with published notification. CSI reserves the right to correct errors or typographical mistakes.

ORDERING: CSI accepts orders via website (csi.nebraska.gov), fax (402-471-1236), and U.S. Mail (CSI, 800 Pioneers Blvd., Lincoln, NE 68502). Include complete billing and shipping information, contact name & phone, and purchase order/reference number. If you have any questions about placing an order, please contact us at 800-348-7537. CSI requires a customer signature on custom designs and/or special orders.

PAYMENT: Remit all payments to CSI Accounts Receivable, P.O. Box 94661, Lincoln, NE 68509-4661 within thirty (30) days (Net 30) of receipt of invoice.

DELIVERY: CSI prices include delivery and set up throughout Nebraska. Deliveries are scheduled on a routine basis by the CSI Warehouse. Please make prior arrangements with CSI Warehouse to schedule moving, removal, and/or disposal of old furniture, for which separate fees may be charged. CSI will not attach items to the owner's walls.

STORAGE FEES/MOVING FEES: For orders left undelivered, CSI reserves the right to charge storage at a minimum rate of 2% of the total order per month. The CSI Warehouse can provide moving services. Contact CSI for hourly rates and mileage charges.

BACK ORDERS, SHORTAGES, & RETURNS: For shortages or damage noticed during delivery, please note on the shipping document or report to CSI as soon as possible. Returns for defects in materials and/or workmanship (based on CSI inspection) will be accepted during the warranty period. Please contact CSI Customer Service (800-348-7537) to request authorization for returns. Returns based on anything other than product deficiencies are subject to a minimum 25% restocking fee. Custom orders are returnable only for defects in workmanship, materials, or CSI error.

WARRANTY INFORMATION: Providing quality goods and services is CSI's mission and customer satisfaction is a priority. All requests for warranty repair will be determined by CSI. Warranty claims must be submitted to CSI in writing within the warranty period with the sales order number, item description, production order number, or date of receipt. Claims will only be honored for the original purchaser of the goods. The original warranty period of any item will not be extended by repair or replacement; warranty may be voided if the product was not used or installed as recommended; and warranties will not be honored in the event of modifications, misuse, abuse, alterations, or negligence by the owner. Contact CSI at 800-348-7537 or <https://csi.nebraska.gov/contact/request-warranty-repair> to report a warranty issue.

Wood furniture, including wood frame chairs, loveseats, and sofas, manufactured by CSI carries a five (5) year warranty (excluding fabric) against defects in workmanship and materials, unless purchased from CSI's Special Offer area, or unless otherwise noted on the Quotation, Sales Form, or Customer Acknowledgment.

CSI offers no warranty on textiles or fabrics beyond what is offered by the vendor to CSI. Typically, this is a one (1) year period relating only to manufacturer's defects.

All refinished, refurbished, or re-upholstered items carry a thirty (30) day warranty from the delivery date.

See the chair section for specific warranty information on chair models and lines. Chair casters carry a one (1) year warranty from the date of receipt. CSI office chairs have typically been tested to "applicable ANSI/BIFMA standards," and are designed for standard office use by occupants weighing up to 300 pounds, used during one shift. CSI offers a model designed for bariatric use with weight limits of 500 pounds, in addition to models designated suitable for "24/7" multi-shift usage. If you have questions about the suitability of a model for intensive and/or institutional use, we're happy to discuss your needs.

Institutional furniture is covered by warranty for the period offered to CSI by the vendor only.

Clothing, dry goods, janitorial products, signs, name badges, awards, and other consumable products shall be free of flaws and defects at the time of delivery and prior to use.

File cabinets have a five (5) year warranty for the frame and structural integrity only.

Student desks manufactured by CSI carry a two (2) year frame warranty. Student desktops and seat backs shall be free of defects in workmanship and materials at the time of delivery and prior to use.

Modular furniture, panel systems, and CSI-manufactured folding tables have a two (2) year warranty for framework and structural integrity.

View Tier 1 and Tier 2 fabric options at <https://csi.nebraska.gov/fabric-vinyl-options>. Contact your sales representation for Tier 3 fabric options.
