

# COMFORT RX

## FEATURES AND OPERATIONAL INSTRUCTIONS

Designed to work individually for each user, the Comfort RX flexes for each sitting posture.  
For more information [csi.nebraska.gov/comfort-rx](http://csi.nebraska.gov/comfort-rx).

### BACK HEIGHT ADJUSTMENT

Lift to highest position and quickly drop back, allow to lowest position. Slowly lift back until it clicks into desired height.

### ARM HEIGHT ADJUSTMENT

Squeeze button under arm pad on the outside to raise or lower to desired height.

### LUMBAR SUPPORT

Turn handwheel to adjust as desired.

### CRANK ADJUSTMENT

Rotate the crank to adjust the "pitch" of the chair. Pull the right side (as you sit in the chair) armrest up. Pull on the crank (away from the chair) and turn to adjust the tilt tension mechanism.

### GAS LIFT ADJUSTMENT

Lift lever to activate gas cylinder and use body weight to adjust height.

### ARM PAD ADJUSTMENT

Press button under front of armpad to move armpad forward or rearward.

### ARM WIDTH ADJUSTMENT

Squeeze lever under arm to adjust to desired width.

### SEAT TILT LOCK ADJUSTMENT

Lift lever up and tilt seat to desired position. Lock into position by pushing lever back down.

### SEAT SLIDER

Lift lever up and slide seat forward or backward to desired position. Release to lock.
