Net 1 US Quart

MIST-N-SHINE is suitable for use in both high and low speed spray buffing programs. Mist-N-Shine has incorporated in it a thermoplastic polishing agent which adheres to the floor and is not removed in the mopping process.

The special polymer- detergent system in Mist-N-Shine does not yellow or discolor. It forms a hard, crystal clear detergent resistant film that protects the floor and base finish.

MIST-N-SHINE is for institutional and industrial use only, not intended for home use.

DIRECTIONS SPRAY BUFFING

Spray lightly ahead of buffing machine. Buff until dry.

The continuous use of MIST-N-SHINE creates a gloss on the floor that will get brighter with time. An occasional buffing of the floor will give a higher gloss

This product is not hazardous as defined by the OSHA Hazard Communication Standard 29 CFR 1910.1200.

PRECAUTIONARY STATEMENTS

Prevention: Avoid contact with skin and eyes. If contact is likely, safety glasses with side shields are recommended. Observe good industrial hygiene practices.

Response: Wash hands after handling.

Storage: Store locked up. Protect from sunlight. Do not expose to temperatures exceeding 50° C/ 122° F.

Disposal: Dispose of contents/container to an approved waste disposal plant.
