

Cornhusker State Industries

Laundry Service

NEBRASKA
DEPT OF CORRECTIONAL SERVICES

About Cornhusker State Industries

- Our mission is to use work as a tool to prepare incarcerated men and women for successful reentry back into our communities. We provide meaningful work experience by building quality products, providing services, and creating value for our external customers. Work skills are supplemented with training, education, and certifications so CSI workers can effectively translate their abilities into post-release success.

About CSI Laundry Operations

- CSI has two major laundry facilities inside the Nebraska State Penitentiary. The facilities are used for the laundry needs of the incarcerated men and women in the Nebraska Department of Correctional Services. In addition, CSI has contracts with county and state agencies to do their laundry, including County Hospitals, County Health Centers, Vets Homes, and some higher education institutions.

Non-Inclusive List of Laundry Items:

- Bath towels
- Bath blankets
- Wash cloths
- Bedspreads

CSI Offers You...

Our laundry service includes all transportation costs.

CSI Offers You...

Turnaround carts specifically designed to transport both clean and soiled linens are included. All carts and covers are completely sanitized before each use.

CSI Offers You...

JCAHO designed facilities that meet the most demanding requirements for the processing of health care accounts. Negative air pressure from clean to soiled ensures there is no cross-contamination.

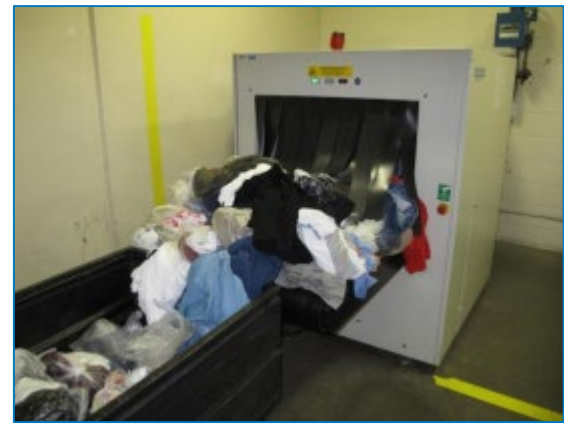

CSI Offers You...

Advanced heat reclamation and water reuse systems allow us to control escalating utility costs ensuring very competitive pricing.

CSI Offers You...

OSHA guidelines are strictly enforced in the handling of all soiled linens. Personal protection equipment allows for the safe handling of all health care items.

CSI Offers You...

All items are X-rayed before washing to remove all non-linen items. All items found are secured and packaged for safe return to our customers.

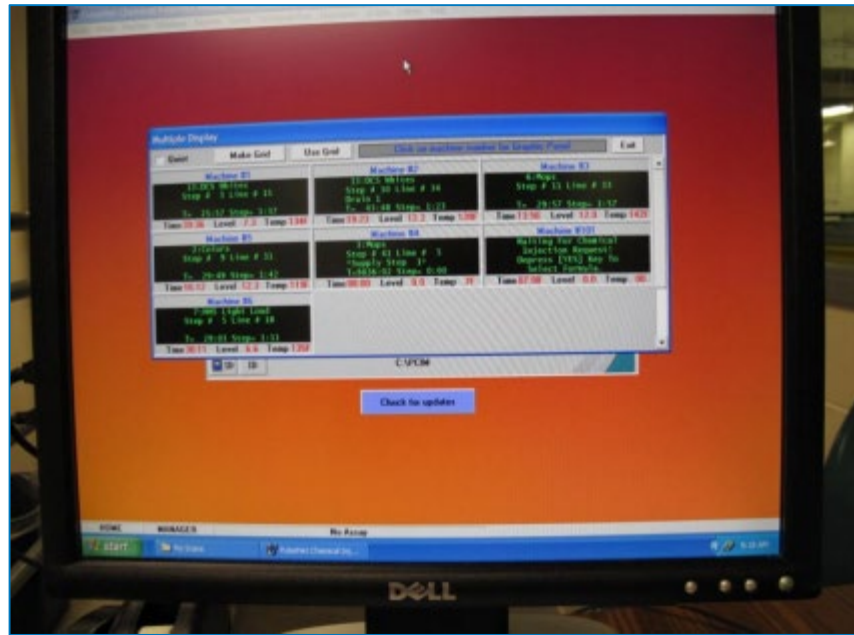

CSI Offers You...

Large capacity washer-extractors that are microprocessor equipped allow for precise control of all wash processes to ensure consistent high-quality results.

CSI Offers You...

Proof of delivery confirmation on our networked, flow meter equipped chemical delivery system ensures that all loads receive the designed amounts of chemistry.

CSI Offers You...

An elaborate software program exclusively designed to control laundry processes provides a professional level of consistency.

CSI Offers You...

Patented axial flow dryers utilizing moisture sensors that are microprocessor controlled provides a safe drying environment for all fabrics.

CSI Offers You...

State of the art ironing systems provide a high-quality finish on all sheets, spreads, and pillowcases. The automated folding equipment yields a final product that saves storage space for our customers.

CSI Offers You...

A complete sewing repair area helps our customers get the most life out of their textile purchases.

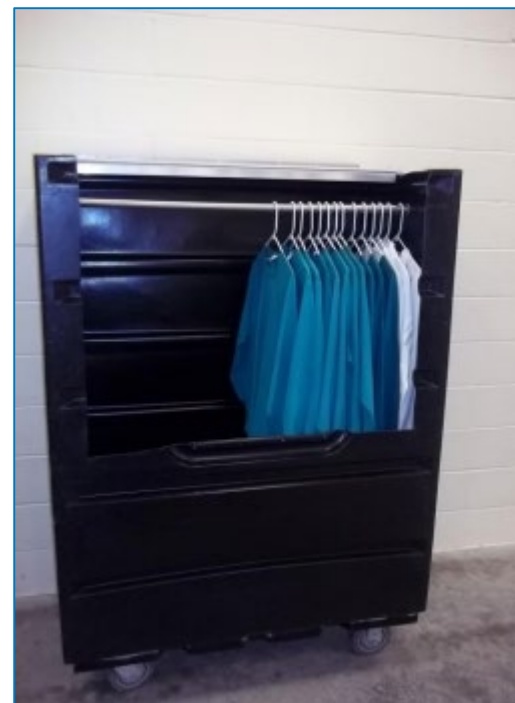

CSI Offers You...

Individual attention to personal items allows our customers to receive orders that are bundled for each resident.

CSI Offers You...

Clean carts are custom packed to make the unit ready reducing labor requirements for our customers.

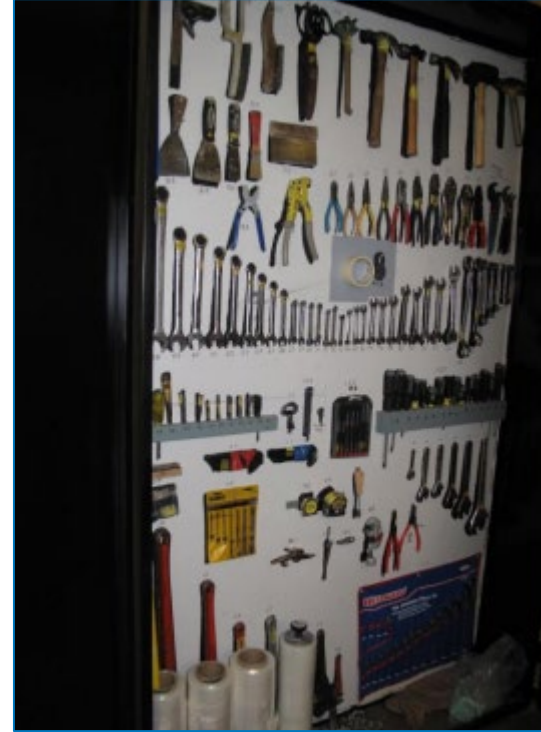

CSI Offers You...

Ironing of medical staff apparel provides a professional appearance.
